THORNLESS AUSTIN

Improved Dewberry

Experts agree this is the most valuable addition to our list of Fruits in recent years. Read description on other side.

THORNLESS AUSTIN IMPROVED DEWBERRY

This wonderful Berry originated in Northern Texas about ten years ago. It has been tested over a wide range of conditions and proven to be equal to or even better than the old time Austin in productiveness and quality. The most remarkable feature of this berry is the absolute freedom from thorns or stickers of any kind. It would be no exaggeration to say that they are as smooth as a sweet potato vine.

Just imagine what this means. You can handle the vines in any way you like, run your bare arms through them and not a scratch. Everybody likes those big, sweet, juicy Dewberries. We predict that this thornless variety will be immensely popular, both as a home and a market Berry.

Every family should have some of these Berries. The quantity of these plants is limited this season but the demand is great wherever they are introduced. File your order early so as to be sure of getting a start of these valuable plants.

File your order now before they are all sold. Fill out the order blank below and mail or hand it to us at once. You may make payment with order or pay your Postmaster or Express Agent when you get the plants. Delivery will be made at proper time for planting. We will give you notice a few days before shipping. **YOU TAKE NO RISK.** We absolutely guarantee these Berries to be just as represented.
